ABOUT MYSELF

I am Bragas Enka Pratama, also known as Agas Pratama, a Grade 12 student and Backend Developer enthusiast. I focus on building efficient server-side systems and exploring the Linux ecosystem. I have experience working with C++, Go, and Node.js to create functional backend logic and automation tools. Highly dedicated to mastering the Linux ecosystem and optimizing system performance through low-level exploration and robust backend logic.

EXPERIENCE

Japanese Club | 2024-2025

Vice President

Assisted the President in managing and coordinating club activities and weekly meetings.

EDUCATION

2023
